COMPATIBILITY

Product may be compatible with herbicides and pesticides. Please check with the manufacturer. Please be aware that physical compatibility does not guarantee product efficacy. DO NOT apply with fungicides.

APPLICATION GUIDE

Apply through boom spray, aerial, fertigation, or overhead irrigation. DO NOT apply when conditions are extremely hot. Best applied in temperatures in the range of 5 - 25 degrees Celsius. Preferably early in the morning or late in the afternoon.

MIXING INSTRUCTIONS

1. Half fill tank with required volume of water.
2. Add the required amount of BioHub Endo-4.
3. Fill the remainder of tank with water and maintain agitation.
4. Start application within 1 hour of final mixing.

PRODUCT USAGE RATES

Please note that the product usage rates should only act as a general guide. BioHub Solutions Pty Ltd recommends that all products are applied after appropriate testing has been conducted so that correct products and rates can be recommended.

As a general rule BioHub Endo-4 should be applied at 200g/Ha at recommended application periods.

CONDITIONS OF SALE

These goods are manufactured and tested to specific standards and are sold in good faith, however, no guarantee is given as conditions and methods under which they are used are beyond the control of BioHub Solutions Pty Ltd. Before using, user should determine the suitability of the product for his or her intended use and user assumes the risk and liability in connection therewith.

Warning

KEEP OUT OF THE REACH OF CHILDREN

DO NOT SWALLOW. The spray from this product may act as an irritant.

Avoid inhalation and contact with the eyes and skin. Users are encouraged to seek further advice.

Storage

DO NOT STORE product in direct sunlight.

DO NOT STORE product in temperature below 5 degrees Celsius

DO NOT STORE near potential food sources such as fertiliser, chemicals, and biostimulants.
