COMPATIBILITY

Product may be compatible with herbicides and pesticides. Please check with the manufacturer. Please be aware that physical compatibility does not guarantee product efficacy.

READ BEFORE USING

Stir well before using. Use filter socks where applicable. Do not apply undiluted or in the heat of the day.
Do not store in diluted form. BioHub Worm+ is a natural product. Each batch may vary slightly.

MIXING INSTRUCTIONS

1. Half fill tank with required volume of water.
2. Add the required amount of BioHub Worm+.
3. Fill the remainder of tank with water and maintain agitation.

PRODUCT USAGE RATES

Please note that the product usage rates should only act as a general guide. BioHub Solutions Pty Ltd recommends that all products are applied after appropriate testing has been conducted so that correct products and rates can be recommended.

As a general rule BioHub Worm+ should be applied at 2-5L/Ha at key growth periods of the targeted crop.

CONDITIONS OF SALE

These goods are manufactured and tested to specific standards and are sold in good faith, however, no guarantee is given as conditions and methods under which they are used are beyond the control of BioHub Solutions Pty Ltd. Before using, user should determine the suitability of the product for his or her intended use and user assumes the risk and liability in connection therewith.
