

Solutions for today.
Benefits for generations.

BioHub Energise-NS

Where science meets sustainability, and your farm's potential meets our passion.

BioHub Energise-NS

NPKS (13.58% - 0.34% - 0.7% - 12.20%)

BioHub Energise-NS is an organic-based high analysis nitrogen and sulphur granule. It provides the ultimate foundation for plant growth for cropping, horticulture and turf.

Typical Nutrient Analysis

Total Nitrogen	13.58%
Total Phosphorus	0.34%
Total Potassium	0.7%
Total Sulphur	12.2%
Total Calcium	1.65%
Total Magnesium	0.52%
Total Carbon	14.7%
Total Zinc	43.7 mg/kg

Benefits

When utilised as part of our integrated biological solution, called the BioPlan, BioHub Energise-NS can provide the following benefits to the soil and crops.

High analysis organic source of nitrogen and sulphur when compared to current options.

Nitrogen and sulphur are key nutrients in improving plant biomass, yield, and quality.

Nitrogen and sulphur are key nutrients in protein development in plants.

Correct nitrogen and sulphur levels can aid in nutrient cycling in the soil.

At BioHub Solutions, we fuse cutting-edge science and data with the wisdom of nature to deliver pioneering biological solutions to the agricultural sector. Our Australian heritage drives us to innovate for the unique challenges faced by local and global farmers, ensuring our products not only boost your bottom line but also safeguard the environment.

Take the guesswork out of biologicals by contacting one of our team or authorised business partners.
