

Solutions for today.
Benefits for generations.

The background of the entire advertisement is a photograph of two men standing in a field at sunset. The sun is low on the horizon, creating a warm, golden glow. The men are silhouetted against the bright light. One man is on the left, leaning on a wire fence. The other man is on the right, wearing a cap and looking towards the first man. The field is filled with tall grass, and the sky is a mix of orange and blue.

BioHub Energise-NP Plus

Where science meets sustainability, and your farm's potential meets our passion.

BioHub Energise-NP Plus

NPKS (3.6% - 8.1% - 0.3% - 3.2%) Ca 23.2% C 6.3%

BioHub Energise-NP Plus is an organic-based phosphorus granule with high levels of calcium. It provides the ultimate foundation for planting requirements for cropping, horticulture and turf. Targeted biology from BioHub Endo-4 develop superior roots and solubilise soil nutrients for superior plant performance.

Benefits

When utilised as part of our integrated biological solution, called the BioPlan, BioHub Energise-NP can provide the following benefits to the soil and crops.

Excellent organic source of calcium to assist plant health.

Excellent combination of nitrogen and phosphorus for strong plant and root growth..

Blended granule combination with BioHub Endo-4 to maximise root development.

Certified allowable input suitable for organic cropping environments

At BioHub Solutions, we fuse cutting-edge science and data with the wisdom of nature to deliver pioneering biological solutions to the agricultural sector. Our Australian heritage drives us to innovate for the unique challenges faced by local and global farmers, ensuring our products not only boost your bottom line but also safeguard the environment.

Take the guesswork out of biologicals by contacting one of our team or authorised business partners.
