

Solutions for today.
Benefits for generations.

The background of the advertisement is a photograph of two men in silhouette standing in a field at sunset. The sun is low on the horizon, creating a warm, golden glow. The men are standing in front of a wire fence, and the field is filled with tall grass. The overall mood is peaceful and sustainable.

BioHub Energise-NS Plus

Where science meets sustainability, and your farm's potential meets our passion.

BioHub Energise-NS Plus

NPKS (12.4% - 0.4% - 0.7% - 11.0%)

BioHub Energise-NS Plus is an organic-based high analysis nitrogen and sulphur granule. It provides the ultimate foundation for plant growth for cropping, horticulture and turf. Targeted biology develop superior roots and solubilise soil nutrients for superior plant performance.

Benefits

When utilised as part of our integrated biological solution, called the BioPlan, BioHub Energise-NS Plus can provide the following benefits to the soil and crops.

High analysis organic source of nitrogen and sulphur when compared to current options.

Blended granule combination with BioHub B6TF for root development and nutrient solubilisation.

Nitrogen and sulphur are key nutrients in protein development in plants.

Certified allowable input suitable for organic cropping environments

At BioHub Solutions, we fuse cutting-edge science and data with the wisdom of nature to deliver pioneering biological solutions to the agricultural sector. Our Australian heritage drives us to innovate for the unique challenges faced by local and global farmers, ensuring our products not only boost your bottom line but also safeguard the environment.

Take the guesswork out of biologicals by contacting one of our team or authorised business partners.
